

Message

I am happy to learn that the Nagaland Pollution Control Board will be organizing a cleanliness drive in the State to mark the World Environment Day 2016.

The World Environment Day is celebrated on 5th June, every year, the purpose of having such Day dedicated will help people know the vital importance towards environmental issues and make sure that throughout the world people enjoy healthy surroundings and protect the earth natural resources.

On this occasion of the World Environment Day, I urge all of us to observe this special Day by giving some of our time to participate in the cleanliness drive at our homes, offices, surroundings, schools, colleges and in our neighbourhood to make our Nagaland a cleaner State; thus in return we also facilitate our National Mission of Swacch Bharat.

Let us all make an effort for the sake of our Children's and grand-children's future to take on the responsibility in making our Planet a more safer, cleaner and beautiful place to live.

(P. B. ACHARYA).
