**March 02, 2021**

## **PRESS RELEASE**

Honble Governor R N Ravi took first dose of indigenously produced Covaxin today March 2 at the AIIMS New Delhi following COVID 19 protocols. 2nd dose will be due after 28 days. Covaxin is absolutely safe and reliable. People have options to choose the vaccine - Covaxin or Covishield. He thanked the Indian scientists for this wonderful gift to humanity. When the world is in the throes of a global pandemic for the last over one year, It is a matter of pride for every Indian that our country is the Vaccine hub of the world and has brought this life saving vaccine to the needy humanity in several countries. He hoped that our people of Nagaland will take adequate advantage of the vaccine and help the country in defeating the COVID 19 for good.

**PRO to Governor**
