### **MESSAGE**

On the occasion of National Doctors' Day, I on behalf of the people of Nagaland and my own behalf express our sincere gratitude to the Doctors and other healthcare professionals who have been tirelessly and selflessly working to save lives amidst the unprecedented COVID-19 pandemic. They are doing this yeoman service to humanity putting their own lives at high risk and often cut off from their near and dear ones.

Since the Coronavirus outbreak, many Doctors and other healthcare professionals have lost their lives in the line of their duty. I pay my heartfelt tribute to the Corona Martyrs.

The unfortunate incidents of violence against Doctors and healthcare professionals reported from some parts of the Country are unacceptable to a civilized society and calls for outright condemnation and exemplary punishment to the perpetrators.

On this occasion, I wish the medical fraternity all the best.
